## Eco-Committee

Dear Parents and Carers,

This year we are continuing our Eco-Committee to help our school become as environmentally friendly as possible. The committee will consist of one child from each class. The duties of the committee will include:

- Attending meetings
- Writing action plans
- Implementing action plans
- Coming up with ideas to improve the school environmental footprint
- Leading the way with environmental issues

If your child is interested in being a member of the Eco-Committee, they will need to put themselves forward to their class teacher by **Monday 9<sup>th</sup> October**. They will then need to put together a speech to present to the rest of their class. The speech will need to include:

- Their interest in and experience of being eco-friendly
- Their ideas to help the school become more environmentally friendly

Your child's class will then vote for who they feel will best represent them in the Eco-Committee. Elections will be held next week and will be announced by the end of the week. We are also looking for a parent member of the Eco-Committee who will be involved on an ad-hoc basis with ongoing projects, it will not require weekly attendance. If you are interested, please email the school office or speak directly with Mr Gilyead (5G).

Yours sincerely,

Mr Gilyead  
Eco-Committee Lead
